

Synchronoss Technologies, Inc. Announces Stock Repurchase Program

May 6, 2008

BRIDGEWATER, N.J.--(BUSINESS WIRE)--May 6, 2008--Synchronoss Technologies, Inc. (Nasdaq: SNCR), the premier provider of on-demand transaction management software to Tier One communication service providers, today announced that its Board of Directors has authorized a stock repurchase program under which the company may repurchase up to \$25 million of its outstanding common stock. Synchronoss plans to make such purchases at prevailing prices over the next twelve months, subject to applicable rules and regulations of the Securities and Exchange Commission.

Stephen G. Waldis, President and Chief Executive Officer of Synchronoss, stated, "We are encouraged by the progress the company is making against its strategic growth initiatives, which is evidenced in part by a record number of new customer wins in the first quarter of 2008. From a long-term perspective, we believe the long-term growth prospects for Synchronoss are substantial, and as a result, we believe that today's announced share repurchase program is in the best interest of Synchronoss and its stockholders."

Any purchases under the stock repurchase program may be made, from time to time, in the open market, through block trades or otherwise. The program does not obligate Synchronoss to acquire any particular amount of common stock and purchases may be commenced or suspended at any time, or from time to time, without prior notice based on market conditions and other factors.

About Synchronoss Technologies, Inc.

Synchronoss Technologies (NASDAQ: SNCR) is the premier provider of on-demand transaction management software to Tier One communications service providers. Synchronoss enables service providers to drive growth in new and existing markets while delivering an improved customer experience at lower costs. The company's flagship ActivationNow(R) and ConvergenceNow(R) software platforms automate, synchronize and simplify electronic service creation and management of advanced wireline, wireless and IP services across existing networks.
