BRIDGEWATER, N.J.--(BUSINESS WIRE)--Feb. 4, 2008--Synchronoss Technologies, Inc. (Nasdaq: SNCR), the premier provider of on-demand transaction management software to Tier One communication service providers, today announced its financial results for the fourth quarter and year ended December 31, 2007.

Stephen G. Waldis, President and Chief Executive Officer of Synchronoss, stated, "Our financial results for the fourth quarter and full year 2007 were very strong and above the high end of our expectations. More importantly, we validated the success and scalability of our business model while our franchise and brand became known on a world-wide basis." Waldis added, "From a long-term perspective, we believe Synchronoss is well positioned to benefit from multiple growth opportunities, including e-commerce, wireless, VOIP and most importantly, the trend towards converged services. We are optimistic about our ability to take advantage of these opportunities based on Synchronoss' unique ConvergenceNow(R) platform, relationships with industry leaders in each segment of the communication service provider marketplace, and our demonstrated ability to deliver business value at extreme scalability levels for our customers."

For the fourth quarter of 2007, Synchronoss reported net revenue of \$36.4 million, representing an increase of 79% on a year-over-year basis and 6% on a sequential basis. Gross profit for the fourth quarter of 2007 was \$20.9 million, including the impact of fair value stock compensation expense, representing a related gross margin of 57%. Synchronoss reported income from operations, in accordance with generally accepted accounting principles ("GAAP"), of \$10.5 million, including \$1.1 million of fair value stock-based compensation expense. Based on an effective tax rate of 42.7% in the fourth quarter of 2007, GAAP net income was \$6.6 million, leading to GAAP diluted earnings per share of \$0.20.

Non-GAAP gross profit for the fourth quarter of 2007 was \$21.1 million, an increase of 77% on a year-over-year basis. The related non-GAAP gross margin for the fourth quarter of 2007 was 58%, an increase from the 55% level in the third quarter of 2007. Non-GAAP income from operations, which excludes fair value stock-based compensation expense, was \$11.6 million in the fourth quarter of 2007, representing growth of 82% on a year-over-year basis and a non-GAAP operating margin of 32%. Non-GAAP net income in the fourth quarter was \$7.2 million, leading to non-GAAP diluted earnings per share of \$0.22.

A reconciliation of GAAP to non-GAAP results has been provided in the financial statement tables included in this press release. An explanation of these measures is also included below under the heading "Non-GAAP Financial Measures."

Synchronoss had cash, cash equivalents, and marketable securities of \$95.9 million at December 31, 2007, an increase of approximately \$8.1 million compared to the end of the previous quarter. Lawrence R. Irving, Chief Financial Officer and Treasurer, stated, "During the fourth quarter, our better-than-expected profitability was driven by strong revenue growth combined with automation rates that continue to increase. This increase in automation minimizes the cost of doing business for our customers, while optimizing their customer experience."

Irving added, "We are in the early stages of what have the potential to become large customer relationships over time. Although it does take time to ramp new customers as well as complete the sales process with new prospects given the strategic nature of the decision, we are more optimistic about the Company's long-term future than at any point in our history."
