

Synchronoss to Leverage Siemens to Scale Subscriber Activation / Service Provisioning of Connected Devices Globally

February 15, 2010

BARCELONA, Spain, Feb 15, 2010 (BUSINESS WIRE) -- Synchronoss Technologies, Inc. (NASDAQ: SNCR), the leading global provider of on-demand transaction management software platforms, today announced that it has further expanded its partnership with Siemens IT Solutions and Services to support the global deployment of the ConvergenceNow(R) Plus+(TM) platform.

ConvergenceNow(R) Plus+(TM) is a high performance, multi-tenant platform that enables global service providers, e-Tailers/retailers and original equipment manufacturers (OEMs) to accelerate and monetize their connected devices go-to-market. The platform exposes a simple set of adapters that enable customers to activate wireless services independent of the network they are operating. The ConvergenceNow(R) Plus+(TM) platform is utilized by OEMs, service providers and e-Tailers/retailers to accelerate the launch of [connected devices](#) and services.

"Synchronoss' ConvergenceNow(R) Plus+(TM) platform is a leading industry solution for service providers and OEMs to sell, activate and provision their portfolios of connected devices and services," said Daniel-Rui Felicio, CEO, Services Industries, Siemens IT Solutions and Services. "We are pleased to provide data center and infrastructure support as well as carrier integration assistance to enable Synchronoss' global operations."

"Siemens has a long history of supporting infrastructure and services across the globe, and we are excited to be working with them on our upcoming global deployments of the ConvergenceNow(R) Plus+(TM) platform," said Daniel Rizer, Executive Vice President of Business Development, Synchronoss Technologies.
