SYNCHRONOSS TECHNOLOGIES, INC.

NOTES TO FINANCIAL STATEMENTS – UNAUDITED
(in thousands, except per share data unless otherwise noted)

The financial statements at June 30, 2007 and for the three and six months ended June 30, 2007 and 2006 are unaudited, but in the opinion of management include all adjustments (consisting only of normal recurring adjustments) necessary for a fair presentation of the results for the interim periods. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles (“U.S. GAAP”) for complete financial statements and should be read in conjunction with the financial statements and notes in the Company’s Annual Report incorporated by reference in Form 10-K for calendar year 2006. The results reported in these financial statements should not necessarily be taken as indicative of results that may be expected for the entire year. The balance sheet at December 31, 2006 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by U.S. GAAP for complete financial statements.

1. Description of Business

Synchronoss Technologies, Inc. (the “Company” or “Synchronoss”) is a leading provider of on-demand multi-channel transaction management solutions to the communications services marketplace based on its penetration into key providers of communications services. The Company conducts its business operations primarily in the United States of America, with some aspects of its operations being outsourced to entities located in India and Canada. The Company’s proprietary on-demand platform enables communications service providers (“CSPs”) to take, manage and provision orders and other customer-oriented transactions and perform related critical service tasks. The Company targets complex and high-growth markets including wireless, high speed access (i.e., cable, DSL, and Wi-Max), Voice over Internet Protocol (“VoIP”), video and also target CSP’s bundling of these services (e.g., double, triple, and quadruple plays) and their intersection (i.e., video over wireless, IPTV, content activation). By simplifying technological complexities through the automation and integration of disparate systems, the Company’s platform automates, synchronizes and simplifies electronic order management, activation, and provisioning of these services.

On June 20, 2006, the Company completed its initial public offering (“IPO”) pursuant to which it sold 6,532 shares of common stock at a price to the public of \$8.00 per share. Upon completion of the IPO, all 13,549 outstanding shares of the Company’s Series A and Series 1 convertible preferred stock automatically converted into common stock on a one-for-one basis. On July 3, 2006, the Company’s IPO underwriters exercised their option to purchase an additional 960 shares of common stock at the IPO price of \$8.00 per share before underwriting discounts and commissions.

2. Basis of Presentation and Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Revenue Recognition and Deferred Revenue

The Company provides services principally on a transaction fee basis or, at times, on a fixed fee basis and recognizes the revenues as the services are performed or delivered as described below:

Transaction Service Arrangements: Transaction revenues consist of revenues derived from the processing of transactions through the Company’s service platform and represent approximately 85% and 86% of net revenues during the three months ended June 30, 2007 and 2006, respectively, and represents approximately 83% and 86% of net revenues for the six months ended June 30, 2007 and 2006, respectively. Transaction service arrangements include services such as equipment orders, new account set-up, number port requests, credit checks and inventory management.

Transaction revenues are principally based on a contractual price per transaction and are recognized based on the number of transactions processed during each reporting period. Revenues are recorded based on the total number of transactions processed at the applicable price established in the relevant contract. The total amount of revenues recognized is based primarily on the volume of

SYNCHRONOSS TECHNOLOGIES, INC.

NOTES TO FINANCIAL STATEMENTS — UNAUDITED (Continued)
(in thousands, except per share data unless otherwise noted)

transactions. Many of the Company's contracts guarantee minimum volume transactions from the customer. In these instances, if the customer's total transaction volume for the period is less than the contractual amount, Synchronoss records revenues at the minimum guaranteed amount. Set-up fees for transactional service arrangements are deferred and recognized on a straight-line basis over the life of the contract since these amounts would not have been paid by the customer without the related transactional service arrangement. The amount of set-up fees amortized and recorded as revenue during the three months ended June 30, 2007 and 2006 was \$59 and \$90, respectively, and \$280 and \$147 for the six months ended June 30, 2007 and 2006, respectively. Revenues are presented net of a provision for discounts, which are volume level driven, or credits, which are performance driven, and are determined in the period in which the volume thresholds are met or the services are provided. Deferred revenues represent billings to customers for services in advance of the performance of services, with revenues recognized as the services are rendered.

Professional Service Arrangements: Professional services represented approximately 14% and 12% of net revenues for the three months ended June 30, 2007 and 2006, respectively, and 16% and 12% of net revenues for the six months ended June 30, 2007 and 2006, respectively. Professional services include process and workflow consulting services and development services. Professional services, when sold with transactional service arrangements, are accounted for separately when the professional services have value to the customer on a standalone basis and there is objective and reliable evidence of fair value of the professional services. When accounted for separately, professional service revenues are recognized as services are performed and all other elements of revenue recognition have been satisfied.

In addition, in determining whether professional service revenues can be accounted for separately from transaction service revenues, the Company considers the following factors for each professional services agreement: availability of the consulting services from other vendors, whether objective and reliable evidence of fair value exists for these services and the undelivered transaction revenues, the nature of the consulting services, the timing of when the consulting contract was signed in comparison to the transaction service start date and the contractual dependence of the transactional service on the customer's satisfaction with the consulting work.

If a professional service arrangement does not qualify for separate accounting, the Company would recognize the professional service revenues ratably over the remaining term of the transaction contract. For the three and six months ended June 30, 2007 and 2006, all professional services have been accounted for separately.

Subscription Service Arrangements: Subscription service arrangements which are generally based upon fixed fees represented approximately 1% and 2% of net revenues for the three months ended June 30, 2007 and 2006, respectively, and 1% and 2% of net revenues for the six months ended June 30, 2007 and 2006, respectively, and relate principally to the Company's enterprise portal management services. The Company records revenues on a straight-line basis over the life of the contract for its subscription service contracts.

Concentration of Credit Risk

The Company's financial instruments that are exposed to concentration of credit risk consist primarily of cash and cash equivalents, marketable securities and accounts receivable. The Company maintains its cash and cash equivalents in bank accounts, which, at times, exceed federally insured limits. The Company invests in high-quality financial instruments, primarily money market funds, certificates of deposits and United States bonds. The Company has not recognized any losses in such accounts. The Company believes it is not exposed to significant credit risk on cash, cash equivalents and marketable securities. Concentration of credit risk with respect to accounts receivable is limited because of the creditworthiness of the Company's major customers.

The Company's top five customers accounted for 95% and 94% of net revenues for the three months ended June 30, 2007 and 2006, respectively, and 95% and 95% of net revenues for the six months ended June 30, 2007 and 2006, respectively. The Company's top five customers accounted for 95% and 92% of accounts receivable at June 30, 2007 and December 31, 2006, respectively. Synchronoss is the primary provider of e-commerce transaction management solutions to AT&T Mobility LLC (formerly Cingular Wireless), the Company's largest customer, under an agreement which runs through January of 2008, but which will be automatically renewed for an additional twelve months unless either party terminates prior to November 1, 2007. Under the terms of this agreement, AT&T Mobility LLC may terminate its relationship with the Company for convenience, although the Company believes AT&T Mobility LLC would encounter substantial costs in replacing the Company's transaction management solution.

SYNCHRONOSS TECHNOLOGIES, INC.

NOTES TO FINANCIAL STATEMENTS — UNAUDITED (Continued)
(in thousands, except per share data unless otherwise noted)

Fair Value of Financial Instruments

Statement of Financial Accounting Standards (“SFAS”) No. 107, *Disclosures about Fair Value of Financial Instruments*, requires disclosures of fair value information about financial instruments, whether or not recognized in the balance sheet, for which it is practicable to estimate that value. Due to their short-term nature, the carrying amounts reported in the financial statements approximate the fair value for cash and cash equivalents, accounts receivable, equipment loan payable and accounts payable. The Company believes the carrying amount of its equipment loan approximates its fair value as of June 30, 2007 and December 31, 2006, since the interest rate of the equipment loan approximates a market rate.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with a maturity of three months or less at the date of acquisition to be cash equivalents.

Marketable Securities

Marketable securities consist of fixed income investments with a maturity of greater than three months and other highly liquid investments that can be readily purchased or sold using established markets. In accordance with SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, these investments are classified as available-for-sale and are reported at fair value on the Company’s balance sheet. The Company classifies its securities with maturity dates of 12 months or more as long term. Unrealized holding gains and losses are reported within accumulated other comprehensive loss as a separate component of stockholders’ equity. If a decline in the fair value of a marketable security below the Company’s cost basis is determined to be other than temporary, such marketable security is written down to its estimated fair value as a new cost basis and the amount of the write-down is included in earnings as an impairment charge. No other than temporary impairment charges have been recorded in any of the periods presented herein.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable consist of amounts due to the Company from normal business activities. The Company maintains an allowance for estimated losses resulting from the inability of its customers to make required payments. The Company estimates uncollectible amounts based upon historical bad debts, current customer receivable balances, the age of customer receivable balances, the customer’s financial condition and current economic trends.

Property and Equipment

Property and equipment and leasehold improvements are stated at cost, net of accumulated depreciation and amortization. Depreciation and amortization are computed using the straight-line method over the estimated useful lives of the assets, which range from 3 to 5 years, or the lesser of the related initial term of the lease or useful life for leasehold improvements. Expenditures for routine maintenance and repairs are charged against cost of services. Major replacements, improvements and additions are capitalized.

Impairment of Long-Lived Assets

In accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, a review of long-lived assets for impairment is performed when events or changes in circumstances indicate that the carrying value of such assets may not be recoverable. If an indication of impairment is present, the Company compares the estimated undiscounted future cash flows to be generated by the asset to the asset’s carrying amount. If the undiscounted future cash flows are less than the carrying amount of the asset, the Company records an impairment loss equal to the amount by which the asset’s carrying amount exceeds its fair value. The fair value is determined based on valuation techniques such as a comparison to fair values of similar assets or using a discounted cash flow analysis. There were no impairment charges recognized during the three and six months ended June 30, 2007 and 2006.

SYNCHRONOSS TECHNOLOGIES, INC.

NOTES TO FINANCIAL STATEMENTS — UNAUDITED (Continued)
(in thousands, except per share data unless otherwise noted)

Cost of Services

Cost of services includes direct labor and those indirect costs related to revenues such as indirect labor, materials and supplies and facilities cost, exclusive of depreciation expense.

Research and Development

Research and development costs are expensed as incurred, unless they meet GAAP criteria for deferral and amortization. Software development costs incurred prior to the establishment of technological feasibility do not meet these criteria, and are expensed as incurred. No costs were deferred during the three and six months ended 2007 and 2006. Research and development expense consists primarily of costs related to personnel, including salaries and other personnel-related expenses, consulting fees and the cost of facilities, computer and support services used in service technology development. The Company also expenses costs relating to developing modifications and minor enhancements of its existing technology and services.

Advertising

The Company expenses advertising as incurred. Advertising expenses were \$13 and \$12 for the three months ended June 30, 2007 and 2006, respectively, and \$13 and \$12 for the six months ended June 30, 2007 and 2006, respectively.

Income Taxes

The Company accounts for income taxes in accordance with SFAS No. 109, *Accounting for Income Taxes*. Under SFAS No. 109, the liability method is used in accounting for income taxes. Under this method deferred income tax liabilities and assets are determined based on the difference between the financial statement carrying amounts and the tax basis of assets and liabilities. For operating losses and tax credit carryforwards, the Company determines the related deferred tax asset using enacted tax rates in effect in the years in which the differences are expected to reverse. A valuation allowance is recorded if it is "more likely than not" that a portion or all of a deferred tax asset will not be realized.

In June 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes — an Interpretation of FASB Statement No. 109* ("FIN 48") to create a single model to address accounting for uncertainty in tax positions. FIN 48 clarifies the accounting for income taxes, by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company adopted FIN 48 as of January 1, 2007, as required and determined that the adoption of FIN 48 did not have a material impact on the Company's financial position and results of operations. Interest costs and penalties related to income taxes are classified as interest expense and selling, general and administrative costs, respectively in the Company's financial statements. The Company did not recognize interest or penalties related to income tax during the three months ended June 30, 2007 or 2006 and did not accrue for interest or penalties as of June 30, 2007 or December 31, 2006. The Company did not have any unrecognized tax benefits as of June 30, 2007 or December 31, 2006. Tax returns for all years 2000 and thereafter are subject to future examination by tax authorities.

Comprehensive Income

SFAS No. 130, *Reporting Comprehensive Income*, requires components of other comprehensive income, including unrealized gains and losses on available-for-sale securities, to be included as part of total comprehensive income. Comprehensive income is comprised of net income and other comprehensive income. Other comprehensive income includes changes in the fair value of the Company's available-for-sale marketable securities. Comprehensive income for the three and six months ended June 30, 2005 and 2006 is shown below.

SYNCHRONOSS TECHNOLOGIES, INC.

NOTES TO FINANCIAL STATEMENTS — UNAUDITED
(in thousands, except per share data unless otherwise noted)

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006

Basic and Diluted Net Income Attributable to Common Stockholders per Common Share

The Company calculates net income per share in accordance with SFAS No. 128, *Earnings Per Share*. The Company determined that its Series A redeemable convertible preferred stock represented a participating security prior to the IPO. Because the Series A redeemable convertible preferred stock participates equally with common stock in dividends and unallocated income, the Company calculated basic earnings per share when the Company reports net income using the if-converted method, which in the Company's circumstances, is equivalent to the two class approach required by EITF 03-6, *Participating Securities and the Two — Class Method under FASB Statement No. 128*. Net losses are not allocated to the Series A redeemable convertible preferred stockholders.

In connection with the Company's IPO, all of the Company's Series A and Series 1 redeemable convertible preferred stock was automatically converted into common stock. Since the Series A redeemable convertible preferred stock participated in dividend rights on a one-for-one basis with common stockholders, the security is included in the denominator of basic earnings per share for the period such preferred stock was outstanding. The Company's Series 1 redeemable convertible preferred stock is included in the denominator of diluted earnings per share for the period it was outstanding.

The following table provides a reconciliation of the numerator and denominator used in computing basic and diluted net income attributable to common stockholders per common share. There were no stock options that were anti-dilutive and excluded from the following table for the three and six months ended June 30, 2007 and 2006.

SYNCHRONOSS TECHNOLOGIES, INC.

NOTES TO FINANCIAL STATEMENTS — UNAUDITED (Continued)
(in thousands, except per share data unless otherwise noted)**Stock-Based Compensation**

As of June 30, 2007, the Company maintains two stock-based compensation plans. Prior to January 1, 2006, the Company was applying the disclosure only provisions of SFAS No. 123, *Accounting for Stock-Based Compensation* (“SFAS 123”). Compensation cost is recognized for all share-based payments granted subsequent to January 1, 2006 and is based on the grant-date fair value estimated in accordance with the provisions of SFAS 123(R). Under SFAS 123(R), an equity instrument is not considered to be issued until the instrument vests. As a result, compensation cost is recognized over the requisite service period with an offsetting credit to additional paid-in capital. Compensation expense also includes the amortization on a straight-line basis over the remaining vesting period of the intrinsic values of the stock options granted prior to 2006 calculated in accordance with *Accounting for Stock Issued to Employees* (“APB 25”).

Impact of Recently Issued Accounting Standards

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (“SFAS 157”). SFAS 157 defines fair value, establishes a framework for measuring fair value in U.S. GAAP and expands disclosures about fair value measurements. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company will adopt SFAS 157 as required and does not expect the adoption of this standard to have a significant impact on the Company’s financial statements.

In February 2007, FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities-Including an amendment of FASB Statement No. 115* (“SFAS 159”). SFAS 159 provides companies with an option to report selected financial assets and liabilities at fair value that are not currently required to be measured at fair value. Accordingly, companies would then be required to report unrealized gains and losses on these items in earnings at each subsequent reporting date. The objective is to improve financial reporting by providing companies with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently. SFAS 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. The Company is currently evaluating the effects of the adoption of SFAS 159 on the Company’s results of operations and financial position.

Segment Information

The Company currently operates in one business segment providing critical technology services to the communications industry. The Company is not organized by market and is managed and operated as one business. A single management team reports to the chief operating decision maker who comprehensively manages the entire business. The Company does not operate any material separate lines of business or separate business entities with respect to its services. Accordingly, the Company does not accumulate discrete financial information with respect to separate service lines and does not have separately reportable segments as defined by SFAS No. 131, *Disclosure About Segments of an Enterprise and Related Information*.

3. Marketable Securities

The following is a summary of available-for-sale securities held by the Company at June 30, 2007 and December 31, 2006. All securities held by the Company are domestic and gross unrealized gains and losses are reported before tax:

	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
June 30, 2007				
Certificates of deposit	\$ 1,947	\$ 1	\$ (6)	\$ 1,942
Government bonds	2,481	4	(2)	2,483
	<u>\$ 4,428</u>	<u>\$ 5</u>	<u>\$ (8)</u>	<u>\$ 4,425</u>
December 31, 2006				
Certificates of deposit	\$ 1,937	\$ 1	\$ (6)	\$ 1,932
Government bonds	3,120	2	(7)	3,115
	<u>\$ 5,057</u>	<u>\$ 3</u>	<u>\$ (13)</u>	<u>\$ 5,047</u>

SYNCHRONOSS TECHNOLOGIES, INC.

NOTES TO FINANCIAL STATEMENTS — UNAUDITED (Continued)
(in thousands, except per share data unless otherwise noted)

Unrealized gains and losses are reported as a component of accumulated other comprehensive loss in stockholders' equity. For the three and six months ended June 30, 2007 and 2006, realized gains and losses were insignificant. The cost of securities sold is based on specific identification method.

4. Stock Plans

The Company uses the Black-Scholes option pricing model for determining the estimated fair value for stock-based awards. The weighted-average assumptions used in the Black-Scholes option pricing model are as follows:

	Three Months Ended June 30, 2007	Six Months Ended June 30, 2007
Expected stock price volatility	62%	60%
Risk-free interest rate	4.60%	4.66%
Expected life of options (in years)	6.23	6.15
Expected dividend yield	0%	0%

The weighted-average fair value (as of the date of grant) of the options granted was \$14.98 and \$4.38 per share for the three months ended June 30, 2007 and 2006, respectively, and \$13.28 and \$4.38 per share for the six months ended June 30, 2007 and 2006, respectively. During the three and six months ended June 30, 2007, the Company recorded total pre-tax stock-based compensation expense of \$725 (\$423 after tax or \$0.01 per diluted share) and \$1.3 million (\$752 after tax or \$0.02 per diluted share), respectively, which includes both intrinsic value for equity awards issued prior to 2006 and fair value for equity awards issued after January 1, 2006. The total stock-based compensation cost related to non-vested equity awards not yet recognized as an expense as of June 30, 2007 was approximately \$7.3 million. That cost is expected to be recognized over a weighted-average period of approximately 2.9 years.

Stock Options

The following table summarizes information about stock options and restricted stock awards.

	Shares Available For Grant	Number of Shares	Options Outstanding Exercise Price per Share Range	Weighted- Average Exercise Price
Balance at December 31, 2006	1,796	2,187	\$ 0.29 - \$12.68	\$ 7.62
Options granted	(548)	548	\$ 14.00 - \$27.84	\$ 21.55
Options exercised	—	(132)	\$ 0.29 - \$10.00	\$ 4.63
Options forfeited	56	(56)	\$ 0.29 - \$24.46	\$ 9.80
Restricted stock granted	(19)	—	\$ 14.00	\$ 14.00
Balance at June 30, 2007	1,285	2,547	\$ 0.29 - \$27.84	\$ 10.73
Vested and expected to vest at June 30, 2007		1,637	\$ 0.29 - \$27.84	\$ 9.93

A summary of the Company's non-vested restricted stock at June 30, 2007, and changes during the six months ended June 30, 2007, is presented below:

Non-Vested Restricted Stock	Number of Awards
Non-vested at January 1, 2007	213
Granted	19
Vested	(51)
Forfeited	(4)
Non-vested at June 30, 2007	177

5. Related Parties

Omniglobe International, L.L.C.

Omniglobe International, L.L.C., (“Omniglobe”) a Delaware limited liability company with operations in India, provides data entry services relating to the Company’s exception handling management. The Company pays Omniglobe an hourly rate for each hour worked by each of its data entry agents. As of June 30, 2007 and 2006, the Company has a service agreement with Omniglobe. The Company’s agreement with Omniglobe provides for minimum levels of staffing at a specific price level resulting in an overall minimum commitment of \$350 over a six month period. Services provided include data entry and related services as well as development and testing services. The current agreement may be terminated by either party without cause with 30 or 60 days written notice prior to the end of the term. Unless terminated, the agreement will automatically renew in six month increments. As of June 30, 2007, the Company fulfilled the overall minimum contractual commitment. The Company does not intend to terminate its arrangement with Omniglobe.

On March 12, 2004, certain of the Company’s executive officers and their family members acquired indirect equity interests in Omniglobe by purchasing an ownership interest in Rumson Hitters, L.L.C. (“Rumson Hitters”), a Delaware limited liability company, as follows:

Name	Position with Synchronoss	Equity Interest in Omniglobe	Purchase Price of Interest in Rumson Hitters, L.L.C.	Proceeds Received from Sale of Interest in Rumson Hitters, L.L.C.
Stephen G. Waldis	Chairman of the Board of Directors, President and Chief Executive Officer	12.23%	\$95,000	\$95,000
Lawrence R. Irving	Executive Vice President, Chief Financial Officer and Treasurer	2.58%	\$20,000	\$20,000
David E. Berry	Former Vice President and Chief Technology Officer	2.58%	\$20,000	\$20,000
Robert Garcia	Executive Vice President, Chief Operating Officer	1.29%	\$10,000	\$10,000

On June 20, 2006, members of Rumson Hitters repurchased, at the original purchase price, the equity interests in Rumson Hitters held by each of the Company’s employees and their family members, such that no employee of the Company or family member of such employee had any interest in Rumson Hitters or Omniglobe after June 20, 2006. Neither the Company nor any of its employees provided any of the funds to be used by members of Rumson Hitters in repurchasing such equity interests. Since June 20, 2006, Omniglobe is no longer a related party.

From March 12, 2004 through June 12, 2006, Omniglobe paid an aggregate of \$1,300 in distributions to all of its interest holders, including Rumson Hitters. In turn, during this period, Rumson Hitters paid an aggregate of \$700 in distributions to its interest holders, including approximately \$154 in distributions to Stephen G. Waldis and his family members, approximately \$32 in distributions to Lawrence R. Irving, approximately \$32 in distributions to David E. Berry and his family members and approximately \$16 in distributions to Robert Garcia.

During the period in which the Company’s employees and their family members owned equity interests in Rumson Hitters, fees paid for services rendered related to these agreements for the three and six months ended June 30, 2006 were \$1.6 million and \$3.7 million respectively. Since June 20, 2006, Omniglobe is no longer a related party.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis in conjunction with the information set forth in our financial statements and related notes included elsewhere in this quarterly report on Form 10-Q and in our Form 10-K for the year ended December 31, 2006. All numbers are expressed in thousands unless otherwise stated. The statements in this discussion regarding our expectations of our future performance, liquidity and capital resources, and other non-historical statements are forward-looking statements. These forward-looking statements are subject to numerous risks and uncertainties, including, but not limited to, the risks and uncertainties described under "Risk Factors" and elsewhere in this Form 10-Q and our Annual Report on Form 10-K for the year ended December 31, 2006. Our actual results may differ materially from those contained herein to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any such statements are based.

Overview

We are a leading provider of on-demand multi-channel transaction management solutions to communications service providers (CSPs). We have designed our solution to be flexible across communication services and channels (i.e., e-commerce, CSP stores and other retail outlets, etc.), allowing us to meet the rapidly changing and converging services offered by CSPs. By simplifying technological complexities through the automation and integration of disparate systems, we enable CSPs to acquire, retain and service customers quickly, reliably and cost-effectively. We enable service providers to drive growth in new and existing markets while delivering an improved customer experience at lower costs. We target complex and high-growth markets including wireless, high speed access (i.e., cable, DSL and wi-max), Voice over Internet Protocol ("VoIP"), video and also target the bundling of these services (e.g., double, triple and quadruple plays) and their intersection (i.e., video over wireless, IPTV, content activation). Our ActivationNow® and ConvergenceNow™ platforms automate, synchronize and simplify electronic order management, activation and provisioning of these services. Our industry-leading customers include AT&T Inc., Vonage Holdings, Cablevision Systems Corporation, Level 3 Communications, Covad, Verizon Business Solutions, Clearwire, Time Warner Cable and Comcast. Our CSP customers use our platform and technology to service both consumer and business customers, including over 300 of the Fortune 500 companies.

Revenues

We generate a substantial portion of our revenues on a per-transaction basis, most of which is derived from contracts that extend up to 48 months. We have increased our revenues rapidly, growing at a compound annual growth rate of 67% from 2001 to 2006. Over the last three years we have derived an increasing percentage of our revenues from transactions. For the three months ended June 30, 2007, we derived approximately 85% of our revenues from transactions processed; and for the three months ended June 30, 2006, we derived approximately 86% of our revenues from transactions processed. The remainder of our revenues were generated by professional services and subscription revenues. As the year progresses, we expect to derive an increasing percentage of our net revenues from transaction processing.

Costs and Expenses

Our costs and expenses consist of cost of services, research and development, selling, general and administrative and depreciation and amortization.

Cost of services includes all direct materials, direct labor and those indirect costs related to revenues such as indirect labor, materials and supplies. Our primary cost of services is related to our information technology and systems department, including network costs, data center maintenance, database management and data processing costs, as well as personnel costs associated with service implementation, customer deployment and customer care. Also included in cost of services are costs associated with our exception handling centers and the maintenance of those centers. Currently, we utilize a combination of employees and third-party providers to process transactions through these centers.

Research and development expense consists primarily of costs related to personnel, including salaries and other personnel related expense, consulting fees and the costs of facilities, computer and support services used in service and technology development. We also expense costs relating to developing modifications and minor enhancements of our existing technology and services.

[Table of Contents](#)

Selling expense consists of personnel costs including salaries, sales commissions, sales operations and other personnel-related expense, travel and related expense, trade shows, costs of communications equipment and support services, facilities costs, consulting fees and costs of marketing programs, such as Internet and print. General and administrative expense consists primarily of salaries and other personnel-related expense for our executive, administrative, legal, finance and human resources functions, facilities, professional services fees, certain audit, tax and license fees and bad debt expense.

Depreciation and amortization relates to our property and equipment and includes our network infrastructure and facilities related to our services.

Current Trends Affecting Our Results of Operations

We have experienced increased demand for our services, which has been driven by market trends such as local number portability, the implementation of new technologies, such as Voice over Internet Protocol, or VoIP, subscriber growth, competitive churn, network changes and consolidations. In particular, the emergence of VoIP and local number portability has increased the need for our services and will continue to be a factor contributing to competitive churn. As a result of market trends, our revenue stream has expanded from primarily wireline customers to the addition of wireless customers and services. In 2004 we began providing local number portability services, and in 2005 and 2006 we further expanded our service offerings into the VoIP markets.

To support the growth driven by the favorable industry trends mentioned above, we continue to look for opportunities to improve our operating efficiencies, such as the utilization of offshore technical and non-technical resources for our exception handling center management. We believe that this program will continue to provide future benefits and position us to support revenue growth. In addition, we anticipate further automation of the transactions generated by our more mature customers and additional transaction types. These development efforts are expected to reduce exception handling costs.

Critical Accounting Policies and Estimates

The discussion and analysis of our financial condition and results of operations are based on our financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP"). The preparation of these financial statements in accordance with U.S. GAAP requires us to utilize accounting policies and make certain estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingencies as of the date of the financial statements and the reported amounts of revenues and expenses during a fiscal period. The SEC considers an accounting policy to be critical if it is important to a company's financial condition and results of operations, and if it requires significant judgment and estimates on the part of management in its application. We have discussed the selection and development of the critical accounting policies with the audit committee of our board of directors, and the audit committee has reviewed our related disclosures in this Form 10-Q. Although we believe that our judgments and estimates are appropriate, correct and reasonable under the circumstances, actual results may differ from those estimates.

We believe the following to be our critical accounting policies because they are important to the portrayal of our financial condition and results of operations and they require critical management judgments and estimates about matters that are uncertain. If actual results or events differ materially from those contemplated by us in making these estimates, our reported financial condition and results of operations for future periods could be materially affected. See "Risk Factors" for certain matters bearing risks on our future results of operations.

Revenue Recognition and Deferred Revenue

We provide services principally on a transactional basis or, at times, on a fixed fee basis and recognize the revenues as the services are performed or delivered as discussed below:

Transactional Service Arrangements: Transaction revenues consist of revenues derived from the processing of transactions through our service platform and represented approximately 85% and 86% of our revenues for the three months ended June 30, 2007 and 2006, respectively. For the six months ended June 30, 2007 and 2006, transactions represented approximately 83% and 86% of our revenues, respectively. Transaction service arrangements include services such as equipment orders, new account set-up, number port requests, credit checks and inventory management.

Transaction revenues are principally based on a set price per transaction and are recognized based on the number of transactions processed during each reporting period. Revenues are recorded based on the total number of transactions processed at the applicable price established in the relevant contract. The total amount of revenues recognized is based primarily on the volume of transactions.

Many of our contracts guarantee minimum volume transactions from the customer. In these instances, if the customer's total transaction volume for the period is less than the contractual amount, we record revenues at the minimum guaranteed amount. Set-up fees for transactional service arrangements are deferred and recognized on a straight-line basis over the life of the contract since these amounts would not have been paid by the customer without the related transactional service arrangement. Revenues are presented net of a provision for discounts, which are volume level driven, or credits, which are performance driven, and are determined in the period in which the volume thresholds are met or the services are provided. Deferred revenues represent billings to customers for services in advance of the performance of services, with revenues recognized as the services are rendered.

Professional Service Arrangements: Professional service revenues represented approximately 14% and 12% of our revenues for the three months ended June 30, 2007 and 2006, respectively. For the six months ended June 30, 2007 and 2006, professional services represented approximately 16% and 12% of our revenues, respectively. Professional services, when sold with transactional service arrangements, are accounted for separately when these services have value to the customer on a standalone basis and there is objective and reliable evidence of the fair value of the professional services. When accounted for separately, professional service revenues are recognized on a monthly basis, as services are performed and all other elements of revenue recognition have been satisfied.

In determining whether professional services can be accounted for separately from transaction service revenues, we consider the following factors for each professional services agreement: availability of the consulting services from other vendors, whether objective and reliable evidence for fair value exists of the undelivered elements, the nature of the consulting services, the timing of when the consulting contract was signed in comparison to the transaction service start date and the contractual dependence of the transactional service on the customer's satisfaction with the consulting work.

If a professional service arrangement does not qualify for separate accounting, we would recognize the professional service revenues ratably over the remaining term of the transaction contract. There were no such arrangements for the three or six months ended June 30, 2007 and 2006.

Subscription Service Arrangements: Subscription service arrangements represented approximately 1% and 2% of our revenues for the three months ended June 30, 2007 and 2006, respectively, and relate principally to our ActivationNow® platform service which the customer accesses through a graphical user interface. For the six months ended June 30, 2007 and 2006, subscription service arrangements represented approximately 1% and 2% of our revenues, respectively. We record revenues on a straight-line basis over the life of the contract for our subscription service contracts.

Service Level Standards

Pursuant to certain contracts, we are subject to service level standards and to corresponding penalties for failure to meet those standards. We record a provision for those performance-related penalties for failure to meet those standards. All performance-related penalties are reflected as a corresponding reduction of our revenues. These penalties, if applicable, are recorded in the month incurred.

Allowance for Doubtful Accounts

We maintain an allowance for doubtful accounts for estimated bad debts resulting from the inability of our customers to make required payments. The amount of the allowance account is based on historical experience and our analysis of the accounts receivable balance outstanding. While credit losses have historically been within our expectations and the provisions established, we cannot guarantee that we will continue to experience the same credit losses that we have in the past or that our reserves will be adequate. If the financial condition of one of our customers were to deteriorate, resulting in its inability to make payments, additional allowances may be required which would result in an additional expense in the period that this determination was made.

Valuation Allowance

We record a valuation allowance on our deferred tax assets when it is more likely than not that an asset will not be realized. Determining when we will recognize our deferred tax assets is a matter of judgment based on facts and circumstances. We determined that it was appropriate to record our deferred tax assets at full value at June 30, 2007 and December 31, 2006, based on our recent cumulative earnings history and our expected future earnings. However, if there were a significant change in facts, such as a loss of a significant customer, we may determine that a valuation allowance is required.

Stock-Based Compensation

As of June 30, 2007, we maintain two stock-based compensation plans. Prior to January 1, 2006, we were applying the disclosure only provisions of SFAS No. 123, *Accounting for Stock-Based Compensation* ("SFAS 123"). Compensation cost is recognized for all share-based payments granted subsequent to January 1, 2006 and is based on the grant-date fair value estimated in accordance with the provisions of SFAS 123(R). Under SFAS 123(R), an equity instrument is not considered to be issued until the instrument vests. As a result, compensation cost is recognized over the requisite service period with an offsetting credit to additional paid-in capital. Compensation expense also includes the amortization on a straight-line basis over the remaining vesting period of the intrinsic values of the stock options granted prior to 2006 calculated in accordance with *Accounting for Stock Issued to Employees* ("APB 25").

We utilize the Black-Scholes option pricing model for determining the estimated fair value for stock-based awards. Use of a valuation model requires management to make certain assumptions with respect to selected model inputs. Expected volatility was calculated based on a blended weighted-average of historical information of our stock and the weighted average of historical information of similar public entities for which historical information was available. We will continue to use a blended weighted average approach using our own historical volatility and other similar public entity volatility information until our historical volatility is relevant to measure expected volatility for future option grants. The average expected life was determined according to the SEC shortcut approach as described in Staff Accounting Bulletin ("SAB") 107, *Disclosure about Fair Value of Financial Instruments*, which is the mid-point between the vesting date and the end of the contractual term. The risk-free interest rate is based on U.S. Treasury zero-coupon issues with a remaining term equal to the expected life assumed at the date of grant. Forfeitures are estimated based on voluntary termination behavior, as well as a historical analysis of actual option forfeitures.

The weighted-average assumptions used in the Black-Scholes option pricing model are as follows:

	<u>Three Months Ended</u> <u>June 30, 2007</u>	<u>Six Months Ended</u> <u>June 30, 2007</u>
Expected stock price volatility	62%	60%
Risk-free interest rate	4.60%	4.66%
Expected life of options (in years)	6.23	6.15
Expected dividend yield	0%	0%

The weighted-average fair value (as of the date of grant) of the options granted was \$14.98 and \$4.38 per share for the three months ended June 30, 2007 and 2006, respectively, and \$13.28 and \$4.38 per share for the six months ended June 30, 2007 and 2006, respectively. The total stock-based compensation cost related to non-vested equity awards not yet recognized as an expense as of June 30, 2007 was approximately \$7.3 million.

Results of Operations**Three months ended June 30, 2007 compared to the three months ended June 30, 2006**

The following table presents an overview of our results of operations for the three months ended June 30, 2007 and 2006.

	Three Months Ended June 30,				Three Months Ended June 30,	
	2007		2006		2007 vs. 2006	
	\$	% of Revenue	\$	% of Revenue	\$ Change	% Change
	(in thousands)					
Net revenue	\$ 31,321	100.0%	\$ 17,442	100.0%	\$ 13,879	79.6%
Cost of services (excluding depreciation and amortization shown separately below)	14,505	46.3%	9,643	55.3%	4,862	50.4%
Research and development	2,534	8.1%	2,150	12.3%	384	17.9%
Selling, general and administrative	4,630	14.8%	2,521	14.5%	2,109	83.7%
Depreciation and amortization	1,290	4.1%	820	4.7%	470	57.3%
	<u>22,959</u>	<u>73.3%</u>	<u>15,134</u>	<u>86.8%</u>	<u>7,825</u>	<u>51.7%</u>
Income from operations	\$ 8,362	26.7%	\$ 2,308	13.2%	\$ 6,054	262.3%

Net Revenue. Net revenues increased \$13.9 million to \$31.3 million for the three months ended June 30, 2007, compared to the three months ended June 30, 2006. This increase is primarily due to increased revenues from existing customers. Net revenues from our wireless customer increased \$13.3 million to \$25.2 million for the three months ended June 30, 2007, compared to the three months ended June 30, 2006. LNP and VoIP transactions accounted for \$6.0 million of our revenues during the three months ended June 30, 2007, as compared to \$5.3 million for the corresponding period last year. Transaction revenues recognized for the three months ended June 30, 2007 represented 85% of net revenues compared to 86% for the same period in 2006. The increase in transaction revenues of \$11.7 million was supplemented by an increase of professional service revenues of \$2.3 million. Professional service revenues increased as a percentage of sales to 14% for the three months ended June 30, 2007, compared to 12% for the three months ended June 30, 2006. As the year progresses, we expect to derive an increasing percentage of our net revenues from transaction processing.

Expense

Cost of Services. Cost of services increased \$4.9 million to \$14.5 million for the three months ended June 30, 2007, compared to the three months ended June 30, 2006, due primarily to the growth in personnel costs required to support higher transaction volumes submitted to us by our customers and increases in telecommunication costs. In particular, personnel and related costs and third party consulting service costs increased \$4.4 million to manage exception handling. Also, additional telecommunication and maintenance expense in our data facilities, contributed approximately \$425 to the increase in cost of services. Cost of services as a percentage of revenues decreased to 46.3% for the three months ended June 30, 2007, as compared to 55.3% for the three months ended June 30, 2006. We are continuing to realize the benefits and efficiencies gained by increased automation rates in our customers.

Research and Development. Research and development expense increased \$384 to \$2.5 million for the three months ended June 30, 2007, compared to the three months ended June 30, 2006, due to the continued investment in and further development of the ActivationNow® and ConvergenceNow™ platforms to enhance our service offerings and increases in automation that have continued to allow us to gain operational efficiencies. Research and development expense as a percentage of revenues decreased to 8.1% for the three months ended June 30, 2007, as compared to 12.3% for the three months ended June 30, 2006.

[Table of Contents](#)

Selling, General and Administrative. Selling, general and administrative expense increased \$2.1 million to \$4.6 million for the three months ended June 30, 2007, compared to the three months ended June 30, 2006, due in part to increases in personnel and related costs totaling \$837, increased expenses of \$461 associated with being a public company, and increased stock-based compensation expense of \$428. Selling, general and administrative expense as a percentage of revenues increased to 14.8% for the three months ended June 30, 2007, as compared to the three months ended June 30, 2006. We anticipate that our selling, general and administrative expenses will increase on an absolute basis in the future as we incur public company costs and make continued investments in sales and marketing.

Depreciation and Amortization. Depreciation and amortization expense increased \$470 to \$1.3 million for the three months ended June 30, 2007, compared to the three months ended June 30, 2006, due to the commencement of depreciation expense associated with recent fixed asset additions.

Income Tax. Our effective tax rate was approximately 41.6% during the three months ended June 30, 2007 and 2006. We review the expected annual effective income tax rate and make changes on a quarterly basis as necessary based on certain factors such as changes in forecasted annual operating income, changes to the actual and forecasted permanent book-to-tax differences, or changes resulting from the impact of a tax law change. During the three months ended June 30, 2007 and 2006, we recognized approximately \$3.9 million and \$1.0 million in related tax expense, respectively.

Six months ended June 30, 2007, compared to the six months ended June 30, 2006

The following table presents an overview of our results of operations for the six months ended June 30, 2007 and 2006.

	Six Months Ended June 30,				Six Months Ended June 30, 2007 vs. 2006	
	2007		2006		\$ Change	% Change
	\$	% of Revenue	\$	% of Revenue		
	(in thousands)					
Net revenue	\$ 52,650	100.0%	\$ 33,166	100.0%	\$ 19,484	58.7%
Cost of services (excluding depreciation and amortization shown separately below)	24,147	45.9%	18,406	55.5%	5,741	31.2%
Research and development	4,466	8.5%	3,835	11.6%	631	16.5%
Selling, general and administrative	7,870	14.9%	4,531	13.7%	3,339	73.7%
Depreciation and amortization	2,377	4.5%	1,539	4.6%	838	54.5%
	<u>38,860</u>	<u>73.8%</u>	<u>28,311</u>	<u>85.4%</u>	<u>10,549</u>	<u>37.3%</u>
Income from operations	\$ 13,790	26.2%	\$ 4,855	14.6%	\$ 8,935	184.0%

Net Revenue. Net revenues increased \$19.5 million to \$52.7 million for the six months ended June 30, 2007, compared to the six months ended June 30, 2006. This increase is primarily due to increased revenues from existing customers. Net revenues from our wireless customer increased \$16.5 million to \$39.7 million for the six months ended June 30, 2007, compared to the three months ended June 30, 2006. LNP and VoIP transactions accounted for \$12.7 million of our revenues during the six months ended June 30, 2007, as compared to \$9.6 million for the corresponding period last year. Transaction revenues recognized for the six months ended June 30, 2007 represented 83% of net revenues compared to 86% for the same period in 2006. The increase in transaction revenues of \$15.3 million was supplemented by an increase of professional service revenues of \$4.4 million. Professional service revenues increased as a percentage of sales to 16% for the six months ended June 30, 2007, compared to 12% for the six months ended June 30, 2006. As the year progresses, we expect to derive an increasing percentage of our net revenues from transaction processing.

Expense

Cost of Services. Cost of services increased \$5.7 million to \$24.1 million for the six months ended June 30, 2007, compared to the six months ended June 30, 2006, due primarily to the growth in personnel costs required to support higher transaction volumes submitted to us by our customers and increases in telecommunication costs. In particular, personnel and related costs and third party consulting service costs increased \$4.9 million to manage exception handling. Also, additional telecommunication and maintenance expense in our data facilities, contributed approximately \$696 to the increase in cost of services. In addition, stock-based compensation expense increased \$130. Cost of services as a percentage of revenues decreased to 45.9% for the six months ended June 30, 2007, as compared to 55.5% for the six months ended June 30, 2006. We are continuing to realize the benefits and efficiencies gained by increased automation rates in our customers.

Research and Development. Research and development expense increased \$631 to \$4.5 million for the six months ended June 30, 2007, compared to the six months ended June 30, 2006, due to the continued investment in and further development of the ActivationNow® and ConvergenceNow™ platforms to enhance our service offerings and increases in automation that have continued to allow us to gain operational efficiencies. Research and development expense as a percentage of revenues decreased to 8.5% for the six months ended June 30, 2007, as compared to 11.6% for the six months ended June 30, 2006.

Selling, General and Administrative. Selling, general and administrative expense increased \$3.3 million to \$7.9 million for the six months ended June 30, 2007, compared to the six months ended June 30, 2006, due in part to increases in personnel and related costs totaling \$1.1 million, increased expenses of \$860 associated with being a public company, increased stock-based compensation expense of \$748, and increased marketing expenses of \$365. Selling, general and administrative expense as a percentage of revenues increased to 14.9% for the six months ended June 30, 2007, as compared to 13.7% for the six months ended June 30, 2006. We anticipate that our selling, general and administrative expenses will increase on an absolute basis in the future as we incur public company costs and make continued investments in sales and marketing.

Depreciation and Amortization. Depreciation and amortization expense increased \$838 to \$2.4 million for the three months ended June 30, 2007, compared to the six months ended June 30, 2006, due to the commencement of depreciation expense associated with recent fixed asset additions.

Income Tax. Our effective tax rate was approximately 41.7% and approximately 41.6% during the six months ended June 30, 2007 and 2006, respectively. We review the expected annual effective income tax rate and make changes on a quarterly basis as necessary based on certain factors such as changes in forecasted annual operating income, changes to the actual and forecasted permanent book-to-tax differences, or changes resulting from the impact of a tax law change. During the six months ended June 30, 2007 and 2006, we recognized approximately \$6.6 million and \$2.1 million in related tax expense, respectively.

Liquidity and Capital Resources

Our principal source of liquidity has been cash provided by operations and by cash provided from our initial public offering (“IPO”) which was completed on June 20, 2006. The net proceeds from our offering and the exercise of the over-allotment option by our IPO underwriters were approximately \$52.8 million, which enabled us to strengthen our balance sheet. As a result, we had cash, cash equivalents and short- and long-term marketable securities of \$77.6 million at June 30, 2007. We anticipate that our principal uses of cash in the future will be facility expansion, capital expenditures and working capital.

On October 6, 2004, we entered into a Loan and Security Agreement (the “Agreement”) with a bank which expires on December 1, 2007. The Agreement includes a Revolving Promissory Note for up to \$2.0 million and an Equipment Term Note for up to \$3.0 million. Availability under the Agreement for the Revolving Promissory Note is based on defined percentages of eligible accounts receivable. Borrowings on the revolving credit agreement bear interest at the prime rate plus 1.25% (9.5% at June 30, 2007 and December 31, 2006). Interest only on the unpaid principal amount is due and payable monthly in arrears, commencing January 1, 2005 and continuing on the first day of each calendar month thereafter until maturity, at which point all unpaid principal and interest related to the revolving advances will be payable in full. There were no borrowings against the Revolving Promissory Note as of December 31, 2006 and during the three or six months ended June 30, 2007. As of June 30, 2007 and December 31, 2006, we had outstanding borrowings of \$333 and \$666, respectively, against the Equipment Term Note to fund purchases of eligible equipment. Borrowings on the equipment line bear interest at the prime rate plus 1.75% (10% at June 30, 2007 and December 31, 2006) and principal and interest are payable monthly. Borrowings under the Agreement are collateralized by all of our assets.

[Table of Contents](#)

The Agreement requires us to meet one liquidity financial covenant that must be maintained as of the last day of each month. The covenant requires us to maintain a ratio of current assets to current liabilities of 2:1. This calculation and a certification of compliance, along with our monthly financial statements, are reported to the bank on a monthly basis. We were in compliance with the financial covenant at June 30, 2007 and December 31, 2006. As of June 30, 2007, we had \$2.0 million available under the revolving promissory note of our bank, subject to the terms and conditions of that facility.

Discussion of Cash Flows

Cash flows from operations. Net cash provided by operating activities for the six months ended June 30, 2007 was \$6.0 million, compared to \$2.5 million for the six months ended June 30, 2006. The increase of \$3.5 million is primarily due to increased income, higher non-cash depreciation and stock compensation expenses and increasing accounts payable balances partially offset by an increase to accounts receivable and a decrease to deferred income taxes. Income and accounts receivable grew primarily due to increased revenue and timing of payments. The accounts payable account grew partially due to increased expenses necessary to support higher revenues as well as capital expenditures necessary to continue to grow our business.

Cash flows from investing. Net cash used in investing activities for the six months ended June 30, 2007 was \$7.0 million compared to net cash used of \$2.7 million for the six months June 30, 2006. The increase of \$4.3 million was due to the increased purchase of fixed assets of \$4.6 million partially offset by net sales of marketable securities.

Cash flows from financing. Net cash provided by financing activities for the six months ended June 30, 2007 was \$277 compared to net cash provided of \$46.3 million for the six months June 30, 2006. The decrease of \$46.0 million was primarily due to net proceeds received from the issuance of common stock sold in our initial public offering, sold last year with no corresponding equity sale in the current period.

We believe that our existing cash and cash equivalents, the cash generated from our initial public offering and cash generated from our operations will be sufficient to fund our operations for the next twelve months.

Effect of Inflation

Although inflation generally affects us by increasing our cost of labor and equipment, we do not believe that inflation has had any material effect on our results of operations for the three and six months ended June 30, 2007 and 2006.

Impact of Recently Issued Accounting Standards

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* ("SFAS 157"). SFAS 157 defines fair value, establishes a framework for measuring fair value in U.S. GAAP and expands disclosures about fair value measurements. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company will adopt SFAS 157 as required and does not expect the adoption of this standard to have a significant impact on the Company's financial statements.

In February 2007, FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities-Including an amendment of FASB Statement No. 115* ("SFAS 159"). SFAS 159 provides companies with an option to report selected financial assets and liabilities at fair value that are not currently required to be measured at fair value. Accordingly, companies would then be required to report unrealized gains and losses on these items in earnings at each subsequent reporting date. The objective is to improve financial reporting by providing companies with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently. SFAS 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. We are currently evaluating the effects of the adoption of SFAS 159 on our results of operations, cash flows, and financial position.

Off-Balance Sheet Arrangements

We had no off-balance sheet arrangements as of June 30, 2007 and December 31, 2006.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The following discussion about market risk disclosures involves forward-looking statements. Actual results could differ materially from those projected in the forward-looking statements. We invest in a variety of financial instruments, consisting principally of investments in commercial paper, money market funds and debt securities of municipalities and the United States Government and its agencies and may be exposed to market risks related to changes in interest rates. We do not actively manage the risk of interest rate fluctuations on our short-term investments; however, such risk is mitigated by the relatively short-term nature of these investments. These investments are denominated in United States dollars.

The primary objective of our investment activities is to preserve our capital for the purpose of funding operations, while at the same time maximizing the income we receive from our investments without significantly increasing risk. To achieve these objectives, our investment policy allows us to maintain a portfolio of cash equivalents and short- and long-term investments in a variety of securities, including commercial paper, money market funds and corporate debt securities. Our cash and cash equivalents at June 30, 2007 and December 31, 2006 included liquid money market accounts. All market-risk sensitive instruments were entered into for non-trading purposes.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures.

Our chief executive officer and chief financial officer, after evaluating the effectiveness of our “disclosure controls and procedures” (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of June 30, 2007, have concluded that, as of such date, our disclosure controls and procedures were effective based on their evaluation of these controls and procedures required by paragraph (b) of Exchange Act Rules 13(a)-15 or 15d-15.

Our management, including our chief executive officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Due to the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected.

Changes in internal controls over financial reporting

There was no change in our internal controls over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) that occurred during the three months ended June 30, 2007 that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are not currently subject to any material legal proceedings; however, we may from time to time become a party to various legal proceedings arising in the ordinary course of our business.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part II, “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2006, which could materially affect our business, financial condition or future results. The risks described in our Form 10-K are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results. If any of the risks actually occur, our business, financial conditions or results of operations could be negatively affected. In that case, the trading price of our stock could decline, and our stockholders may lose part or all of their investment.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Unregistered Sales of Equity Securities

None.

Use of Proceeds

On June 14, 2006, our Registration Statement on Form S-1 (File No. 333-132080) relating to the IPO was declared effective by the SEC. The managing underwriters of the IPO were Goldman, Sachs & Co., Deutsche Bank Securities Inc. and Thomas Weisel Partners LLC. On June 20, 2006, we closed the sale of 6,532,107 shares of common stock in the IPO for net proceeds to us of \$45.7 million. In July 2006, we sold an additional 959,908 shares of common stock upon the exercise of an over-allotment option granted to the underwriters for net proceeds to us of \$7.1 million. No offering expenses were paid directly or indirectly to any of our directors or officers or persons owning ten percent or more of any class of our equity securities or to any other affiliates. We have invested our net proceeds of the offering in money market funds pending their use to fund our expansion. There has been no material change in our planned use of proceeds from the IPO from that described in the final prospectus filed with the SEC pursuant to Rule 424(b).

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. SUBMISSIONS OF MATTERS TO A VOTE OF SECURITY HOLDERS

On May 10, 2007, we held our 2007 Annual Meeting of Stockholders. At the meeting, the following matters were approved by the votes specified below:

1. Charles E. Hoffman and James M. McCormick were elected to serve as directors of Synchronoss until the 2010 annual meeting or until their successors are duly elected and qualified. With respect to Mr. Hoffman 28,590,744 shares of common stock were voted in favor of his election and 351,402 shares of common stock were withheld. With respect to Mr. McCormick 21,046,917 shares of common stock were voted in favor of his election and 7,895,229 shares were withheld. There were no abstentions or broker non-votes. The terms of Messrs. William J. Cadogan, Thomas Hopkins and Stephen G. Waldis continued after the meeting.

2. The ratification of Ernst & Young LLP as our independent registered accounting firm for the year ended December 31, 2007 was approved. The votes were cast as follows: 28,922,423 shares of common stock were voted for the ratification, 11,258 shares of common stock were voted against the ratification and 8,465 shares of common stock abstained from the vote. There were no broker non-votes.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

<u>Exhibit No.</u>	<u>Description</u>
3.2*	Restated Certificate of Incorporation of the Company
3.4*	Amended and Restated Bylaws of the Company
4.2*	Form of Company's Common Stock certificate
31.1	Certification of Chief Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
31.2	Certification of Chief Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
32.1	Certification of Chief Executive Officer Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
32.2	Certification of Chief Financial Officer Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

* Incorporated herein by reference to the exhibit of the same number in the Company's Registration Statement on Form S-1 (Commission File No. 333-132080).

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

Synchronoss Technologies, Inc.

/s/ Stephen G. Waldis

Stephen G. Waldis
President and Chief Executive Officer (Principal
executive officer)

July 30, 2007

**CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER
PURSUANT TO SECURITIES AND EXCHANGE COMMISSION RULE 13a-14(a)**

I, Stephen G. Waldis, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Synchronoss Technologies, Inc. for the quarter ended June 30, 2007;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Executive Officer

**CERTIFICATION OF PRINCIPAL FINANCIAL OFFICER
PURSUANT TO SECURITIES AND EXCHANGE COMMISSION RULE 13a-14(a)**

I, Lawrence R. Irving, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Synchronoss Technologies, Inc. for the quarter ended June 30, 2007;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER
PURSUANT TO 18 U.S.C. SECTION 1350
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report on Form 10-Q of Synchronoss Technologies, Inc. (the "Company") for the quarter ending June 30, 2007, as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Stephen G. Waldis, the Chairman of the Board of Directors, President & Chief Executive Officer of the Company, hereby certify, pursuant to 18 U.S.C. 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, to the best of my knowledge and belief that:

- (1) the Report fully complies with the requirements of Section 13(a) or 15(d), as applicable, of the Securities Exchange Act of 1934, as amended, and
- (2) the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

This certification is being provided pursuant to 18 U.S.C. 1350 and is not to be deemed a part of the Report, nor is it to be deemed to be "filed" for any purpose whatsoever.

Date: July 30, 2007
