Non-GAAP Financial Measures

Synchronoss has provided in this release selected financial information that has not been prepared in accordance with GAAP. This information includes historical non-GAAP revenues, gross profit, operating income, net income, effective tax rate, earnings per share and cash flows from operating activities. Synchronoss uses these non-GAAP financial measures internally in analyzing its financial results and believes they are useful to investors, as a supplement to GAAP measures, in evaluating Synchronoss' ongoing operational performance. Synchronoss believes that the use of these non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends, and in comparing its financial results with other companies in Synchronoss' industry, many of which present similar non-GAAP financial measures to investors. As noted, the non-GAAP financial results discussed above add back the deferred revenue write-down associated with acquisitions, fair value stock-based compensation expense, acquisition-related costs which includes integration costs, changes in the contingent consideration obligation, deferred compensation expense related to earn outs and amortization of intangibles associated with acquisitions.

Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. Investors are encouraged to review the reconciliation of these non-GAAP measures to their most directly comparable GAAP financial measures as detailed above. As previously mentioned, a reconciliation of GAAP to non-GAAP results has been provided in the financial statement tables included in this press release.
